#### 11. ADMINISTRATOR'S REPORT

#### a) Monthly Activity Report – July 2020 (pg 47-50):

Admin Foell advised OVparks has begun to accrue some revenue as the ability to facilitate select programming with adherence to state and county health restrictions and guidelines is acquired. The OVparks summer Rec'ing Crew day camp was well received. Kudos to the staff involved in meeting the many challenges of implementing guidelines and training.

Admin Foell has met with the Fire Department several times regarding the three buildings at the new property. Buildings 1 and 2 are currently approved for use. Building 3 is still pending Fire Department clearance. Upon completion of Fire District requirements, approval is expected within the next few weeks. The gated entry at the new property had to be upgraded to accommodate Police and Fire Department Access to the new property facilities. Admin Foell extended appreciation to Jason Bain for his continued efforts in coordination with the contractors and the Fire District to accomplish the necessary projects to gain Fire Department approval.

Admin Foell advised of continued participation in Zoom Meetings with Sacramento County providing insight into what other districts are doing. Districts are seeing some programming begin to reopen cautiously. Mandated restrictions continue to prohibit group gathering and social distancing and masks are still required.

Supervisor Woodford advised that some programming has been and will be implemented where strict adherence to the California State and Sacramento County and guidelines can be followed.

Recreation Supervisor Bain advised July revenue, while still a deficit, was above projected anticipated totals. Swim lesson sessions have ended and were successful. Tigersharks Training has filled and will run through September 30th.

Recreation Coordinator Roberts summarized that Rec'ing Crew exceeded expectations. Staff and enrollees did an excellent job adjusting to the restrictions in place and provided an opportunity for kids in the community to have fun in a safe environment.

Park Supt. Oropeza shared his enjoyment in providing scheduled sprinklers for the Rec'ing Crew campers to play outside and stay cool. He extended appreciation to the staff for their continued effort to complete necessary park maintenance projects such as irrigation and

equipment repair. OVpark Maintenance Staff Doug, Nelson, and Lucas have just completed a repair of a broken main line at the Orangevale Community Park. Director Meraz commented that the park fields look especially nice. Park Supt. Oropeza attributed this to the consistent mowing and irrigation work by the maintenance full time staff.

- b) Report on Electric Greenway Trail (verbal): Admin Foell advised making decisions regarding tree mitigation measures and tree planting. Approximately 100 trees will need to be removed and, in turn, replanting approximately 300 trees throughout the entire project. Also researching lights for the parkway. Per capita grant money that the City of Citrus Heights, Sunrise and OVparks receives is proposed to offset some of the cost of the lighting. Land purchases are moving forward. One has closed escrow and the other three purchases are nearing completion.
- c) Discussion regarding Board Committees and Meeting Frequency (verbal): Admin Foell addressed the request by Director Stickney to increase the frequency of committee meetings. Recommended Recreation Committee meetings be conducted three time of a year. Director Brunberg encouraged meeting quarterly and emphasized the need for a Board member to be involved in the decisions within the committee. A schedule for committee meetings will be proposed.

b) Public Hearing: Approval of Resolution 20-08-653, Resolution Adopting the Orangevale Recreation and Park District Final Budget for Fiscal Year 2020/21 (pg 55-72): Admin Foell advised the final budget challenges with reductions in revenue which will likely continue for this fiscal year. Staff adjustments and less expenses associated with the programs to offset some of the deficit. Actual net revenue loss will be realized over the next six months which will enable OVparks to plan accordingly in the new year. Taxes are projected at a 4% growth next year. Staffing has remained the same with reduced part time staff due to COVID 19. Cost of living increase of 1% went into effect July 2020. Chart on page 57 illustrates the financial standing of the District with \$225,000 loss this year after \$120,000 gain previous year for a swing of approximately \$350,000 total over one year. Need to review the budget/actuals throughout the year to ensure a small deficit at the end of the year. Capital projects include allocating for the bridge installation at Pecan Park, and ADA compliance, landscaping, and fire code at the new property to make them fully operational and rentable. These projects to be paid out of the park development fee fund and reimbursed to the general fund for those expenses. OLLAD fund to cover expenses associated with the repair of other District facilities. The only new projects include Hazel Avenue tennis court resurfacing and installation of the new light panel. Staff recommendation to utilize the OLLAD funds for these costs. Additional projects include concrete work at the Disc Golf Course pathway and two weeks of California Conservation Corp maintaining natural areas to reduce fire load. Director Swenson inquired if funding is available to renovate the restroom at Pecan Park. Admin Foell advised some funding is available in the supply fund and could be allocated for that purpose in Spring 2021.

#### **RECREATION**

Staff is still working hard on creating programs during the Covid-19 pandemic. We started a second session of our TigerSharks Training program. We started our OVparks day camp, it is starting slowly but we have increased our numbers for the second session and hope it the numbers continue to grow. Top Notch and Pee Wee basketball came back for outside distant training, we had 28 kids for both programs. Martial arts classes are doing an amazing job following all the distant guidelines. Jazzercise has been continuing with their classes outside in the parking lot.

#### VIII. TECHNICAL SPECIFICATIONS

#### **SURFACE PREPARATION**

#### 1. Galvanized Metal

Allow to weather a minimum of 6 months prior to coating. Clean per SSPC-SP1 using detergent and water or a degreasing cleaner, then prime as required. When weathering is not possible or the surface has been treated with chromate's or silicates, first Solvent Clean per SSPC-SP1 and apply a test area, priming as required. Allow the coating to dry at least one week before testing. If adhesion is poor, Brush Blast per SSPC-SP7 is necessary to remove these treatments.

## 2. Previously Coated Surfaces

Maintenance painting will frequently not permit or require complete removal of all old coatings prior to repainting. However, all surface contamination such as oil, grease, loose paint, mill scale, dirt, foreign matter, rust, mold, mildew, mortar, efflorescence, and sealers must be removed to assure sound bonding to the tightly adhering old paint. Glossy surfaces of old paint films must be clean and dull before repainting. Thorough washing with an abrasive cleanser will clean and dull in one operation, or, wash thoroughly and dull by sanding. Spot prime any bare areas with an appropriate primer.

Recognize that any surface preparation short of total removal of the old coating may compromise the service length of the system. Check for compatibility by applying a test patch of the recommended coating system, covering at least 2 to 3 square feet. Allow to dry one week before testing adhesion per ASTM D3359. If the coating system is incompatible, complete removal is required.

#### 3. Stucco

Comply with manufacturer's written instructions and recommendations in applicable to substrates and paint systems. Remove hardware, covers, plates, and similar items already in place that are removable and are not to be painted. If removal is impractical or impossible because of size or weight of item, provide surface-applied protection before surface preparation and painting.

After completing painting operations, use workers skilled in the trades involved to reinstall items that were removed. Clean surface to be primed and painted from materials that could impair bond of paints, including dust, dirt, oil, grease, and incompatible paints and encapsulants. Remove incompatible primers and re-prime substrate with compatible primers or apply tie coat as required to produce paint systems indicated.

Surface must be clean and free of any loose stucco. If recommended procedures for applying stucco are followed, and normal drying conditions prevail, the surface may be painted as soon as possible. The pH of the surface should be between 6 and 9, unless the products to be used are designed to be used in high pH environments such as Loxon.

#### 4. Wood (Exterior)

Surface must be free from dirt and loose material. Wash surface if necessary. Surface must be dry before primer and paint is applied. Prime and paint as soon as possible. Knots and pitch streaks must be scraped, sanded, and spot primed before a full priming coat is applied. Patch all nail holes and imperfections with a wood filler or putty and sand smooth.

#### STUCCO SURFACE REPAIR

Repairs & patches to use a compatible stucco system.

## A. General Repair

- 1. Preparation of the repair area straight line or saw cuts must be made irregular by chipping away the edge. Remove any loose material and expose approximately 2" of the existing lath at all edges of the repair area.
- 2. Installing the water resistive barrier A minimum 6" vertical and 2" horizontal weatherboard/shingle lap is necessary, lap the top and sides under the existing and allow the bottom to lap over the existing paper.
- 3. Installing the lath Cut lath to fit and lap the existing over/on top of the new. The simple rule of thumb to remember is "paper over paper and wire over wire". Note: When using wire lath, metal lath "butterflies" (6" x 12" strips of metal lath) are recommended at the corners of openings such as doors and windows normally installed before the field area.
- 4. Installing the base coat. Follow manufacturer's instructions regarding not bonding the scratch coat to the edge of the repair area, cure times, etc. Match adjacent stucco thicknesses. Install acrylic bonding agent per manufacturer's instructions.
- 5. Applying the finish; Apply the finish using the same type and color of product that exists on the wall, matching the existing finish and texture to the best of your ability. Taper the new finish in to the existing finish.

## **B. Stucco Crack Repair**

- 1. Cracks 1/16-inch wide and smaller (hairline cracks) Clean existing surface and coat wall surface with elastomeric coating in accordance with written product instructions.
- 2. Cracks not wider than 1/16-inch Remove finish along crack, clean crack of loose material and seal crack with a crack filler per manufacturer's instructions. Tool and apply new finish to the area per manufacturer's directions. Match adjacent texture.
- 3. Repair of Cracks 1/16-inch to 1/8 inch wide. Remove finish along crack, clean crack and install crack filler per manufacturer's instructions. ## STAFF REPORT

DATE: 9-10-20

TO: Board of Directors

FROM: Greg Foell, District Administrator

SUBJECT: DISCUSSION REGARDING BOARD COMMITTEES AND MEETING

**FREQUENCY** 

#### **RECOMMENDATION**

Discuss the Board Committees and meeting frequency.

#### **BACKGROUND**

At the August 20, 2020 Board Meeting, the Board of Directors discussed the function of the standing committees and if they should meet on a more regular basis. Staff discussed the following recommendations with input from Director Brunberg as a starting point for discussion. Recreation Committee: Meet 3 times per year ahead of each Activity Guide so suggestions can be incorporated into the next seasons guide: 1) End of January, 2) Mid-May, and 3) Beginning of October; Admin/Finance Committee: Meet 2-3 times per year: 1) Feb/March 2) May/June and 3) July/August (This is the current practice); Maintenance/Operations: Meet twice per year: Late Spring, Early Fall. The committee usually goes to several parks when we meet. Hold a yearly park tour with the entire BOD.

Personnel/Policy, Planning, Government, and Trails committees meet based on need. When committees meet review the District's Master Plan - Strategies and Tactics that fall within the committee assignments.

## **MOTION TO CONSIDER**

I move we approve having the Recreation Committee meet three times per year 1) February/March, 2) May/June, and 3) July/August along with the recommendations listed and incorporate the District's Strategies and Tactics review into each committee meeting.
